DETAILED ACTION

This office action is in response to the amendment filed on January 24, 2005.

Claims 75-83 are pending in this application.

Withdrawn Rejections/Objections:

Applicant is notified that any outstanding rejection/objection that is not expressly maintained in this office action has been withdrawn or rendered moot in view of applicant's amendments and/or remarks.

The following rejections are maintained:

Claims 75-83 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims of U.S. Patent No. 6,492,372. The reasons provided in the previous office action are incorporated here by reference.

Applicant relies on a terminal disclaimer to overcome the rejection, however, such terminal disclaimer was not found in the application. Accordingly, the rejection is maintained.

The following rejections are necessitated by the amendment:

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1624

Claims 81-83 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 81 recites the limitation "a compound of claim 78" in line 4. There is insufficient antecedent basis for this limitation in claim 78 on which claim 81 is dependent. Claim 78 is drawn to 'a pharmaceutical composition' and not 'a compound'. Claims 82-83 also have the same discrepancy with respect to claims 79 and 80 respectively.

Inventorship

In view of the papers filed January 24, 2005, the inventorship in this nonprovisional application has been changed by the deletion of Susan Ashwell, Anthony Kreft, Dimitrios Sarantakis and Gregory Welmaker.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of Office records to reflect the inventorship as corrected.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 1624

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
